Dr. S. S. Sanusi

The Ecological Society of Nigeria was founded in 1973. The objects of the Society are to advance the education of the public, and to advance and publish research in the subject of ecology as a branch of natural science, holds conferences, seminars and workshops biennially on ecology related themes and publishes the proceeding of such conferences and Nigeria Journal of Ecology. Membership of the society is opened to all, whether or not they reside in Nigeria, who are genuinely and personally interested in Ecology and wish to receive the society's Journal or Proceedings for their own use. The minimum subscription for membership is ₦1, 000. 00, subject to review from time to time. This entitles members to attend the meetings and make use of other facilities that the society may offer, to vote in the election of council and officers and to be eligible for election to council and offices. For this subscription, a member is entitled to a copy of each of the Journal and the Proceedings.

Full details of membership and an application form may be obtained on request from the Secretary.

Contents

Volume 14 (2015)

Adeyemi, O. R., Hosu, D , Olorunmaiye, P. M., and Dare, M. O.: Response of Maize (<i>Zea mays</i> L.) to different biochar rates and weed control methods	1
Adenipekun, C. O. and Aramide, F. A.: Influence of wheat bran on degradation of Agricultural wastes by a white rot fungus, <i>Lentinus squarrosulus</i> (Mont) Singer	13
Olosunde, O.M.: Influence of growing medium and sowing depth on seedling emergence and growth of <i>Polyalthia longifolia</i> var. <i>pendula</i> Sonn	21
AdeOluwa, O. O. and O. E. Ogunsanya: Comparative effects of brewery-based compost and NPK fertilizer on yield of two vegetables in Ibadan, Oyo State	29
Adejumo S. A., Adeosun A. A., Olaniyan A. B. and Awodoyin R. O.: Seasonal variations in distribution, heavy metal uptake and proline production of native plants growing on Pb-contaminated site in Ibadan, South-Western, Nigeria	37
Thomas, E. Y., Omueti, J. A. I. and B. O. Ikhane: Distribution of various forms of phosphorus in some selected soils from Ibadan	48
Makinde, Aderemi I., Awogbade, Adeyemi L., Onasanya, R. O. and Alao, Jelilat O.: Effect of intra-row spacing and weed control treatments on growth and yield of okra (<i>Abelmoschus esculentus</i> (L). Moench.) in Ibadan, Southwest, Nigeria	55
Ibiremo, O.S. and Akanbi, O.S.O.: Influence of cocoa pod husk biochar fortified with different forms of NPK fertilizer on the growth and dry matter yield of Kola seedlings in Ibadan, Nigeria	63
Olajuyigbe, Samuel Olalekan and Akande, Happy Adinoyi: Effect of shade on growth of <i>Greenwayodendron suaveolens</i> (Engl. & Diels) Verdc. seedlings	73
Francis O Tobih: Benomyl and Fernasan-D effects on the incidence of seed-borne fungi of cowpea [<i>Vigna uncuigulata</i> (L) Walp]	81
Kareem, O.K., Falaye, A.E., Ajani, E.K. and Olanrewaju, A.N.: Physico-chemical Characteristics and Fish Abundance in Erelu Reservoir, Oyo State, Nigeria	90
Morakinyo, I. and Olubode, O. S.: Effect of soil amendments on growth, minerals and proximate composition of <i>Launaea taraxacifolia</i> (Willd.) Amin Ex C. Jeffrey	102

Instruction to authors

Scope of Journal: The Ecological Society of Nigeria [ECOSON] publishes Nigerian Journal of Ecology which covers researches in all aspects of both plants and animals, in aquatic and terrestrial ecosystems. Descriptive, experimental, theoretical and in-depth review articles and position papers are acceptable.

Manuscripts: Manuscript should be typed in double spacing with at least 2.54 cm margins on all sides. The pages should be numbered consecutively including those containing acknowledgement, references, tables and figure legends. Manuscript must be in English and spelling should conform to the Concise Oxford Dictionary of Current English. Text should be typed in Microsoft Word 98 and above and copied into a CD. Editors reserve the right to modify manuscripts that do not conform to scientific, technical, stylistic or grammatical standards and minor modifications of this nature will normally be seen by authors only at the proof stage. Four copies of the manuscript should be submitted to the Editor-in-Chief and the author should retain a reserve copy (in case of loss or damage). Manuscript, whether accepted or refused by the editors may be returned to the authors. Do not send original figures until the paper has been accepted. Receipt of manuscript will be notified within three months if you have given your address. Send manuscript to: Prof. Sola Ogunyemi, Department of Crop Protection and Environmental Biology, University of Ibadan, Ibadan, Nigeria.

Refereeing: All papers are subjected to peer refereeing. If a paper is returned for revision, the correspondence author should return two hard copies of the revised manuscript and the diskette within two months. Otherwise, revisions may be treated as new submissions and sent for further evaluation. Papers are typeset from author's diskette. Galley proofs will be sent to the corresponding author's address as given on the title page. Alteration in the text other than printer's errors may be charged to the author. The editors reserve the right to correct proofs themselves, using accepted version of the manuscript if the authors corrections are overdue and the journal will be otherwise delayed.

Page charge: There is a page charge of ₦8,000.00 for publishable paper after acceptance. *A refereeing fee of ₦2,000.00 must, however accompany the manuscript on submission.* The charges are subject to review. All papers accepted for publication become the **copyright of the Ecological Society of Nigeria.**

Offprint: Ten offprints are given to the corresponding author of each paper and additional copies may be purchased at current rates.

Preparing the Paper: A standard paper should not exceed 10 printed pages and should be divided into Abstract, Introduction, Materials and Methods, Results, Discussion (or merging Results and Discussion), acknowledgements (very brief if necessary) and References.

Articles cited in the text are referred to by author's name and year of publication e.g. Sanford (1987). Articles by up to three authors should be abbreviated e.g. Sola *et al.*, (1987) or (Sola *et al.*, 1987).

Title page must contain a concise and informative title (as short as possible), a list of authors names and addresses of institutions and a running title of not more than 45 characters. The abstract (not exceeding 350 words) must be followed by key words (not exceeding five words), arranged alphabetically and excluding words used in the title. The references should be in alphabetical order with the Journal names unabbreviated. The format for papers, entire books and chapters in books, is as follows:

Barber, N. and Harrod, J. O. (1997). Strategies for assessing animal population dynamics. *Journal of Animal Biology* **79**:56-64.

Gates, D. R. (1980). *Bio physical Ecology*. Springer Verlag, Berlin.

Susan, R. M. (1985). Population dynamics of five species of *Vernonia* in natural habitats. *Physiological Ecology* (eds. C. R. Townsend and Pcarlow) pp. 109-139.

References should only be cited (in press) if the paper has been accepted for publication. Other references should be cited as "unpublished" and not included in the list. One copy of any paper cited "in press" must be included with the manuscript so that it can be seen by the editors. Work not yet submitted for publication may be cited in the text and attributed to its authors as "full author's name, unpublished data".

Tables, Figures and Plates: Do not present the same data in both figure and table form. **Table must be presented in Microsoft word using appropriate number of columns and rows.** Figures in the form of line diagrams should be drawn or laser printed in black and white on white paper or on good quality tracing paper. Where possible, they should not be bigger than A4 and designed appropriately if they are to be reduced in size for publication. Photographs should be black and white in glossy prints of good contrast. Four copies should be submitted with the manuscript. Colour photographs may be allowed where the author is prepared to contribute to the cost of inclusion.

Units, Symbols and Abbreviations: Authors are requested to use the International System of Units (SI) for all measurement. Note that mathematical expressions should contain symbols not abbreviations. If the paper contains many symbols, it is recommended that they should be defined in the materials and methods section.

Scientific Names: Give Latin names of each species in full together with the authority for the name at first mention in the main text. If there are many species, cite a Flora or Checklist which may be consulted for authorities instead of listing them in the text. Do not give authorities for species cited from published references. Give priority to scientific names in the text (with colloquial name in parentheses if desired).

Numbers in Text: Numbers from one to nine should be spelt out except when used with units e.g. two eyes; 10 stomata; 5°C.
